

iPixel CO₂

iPixel RF

iPixel Er

Your chance to win an iPixel

Visit us at booth #C17 during IMCAS, and sign up to win our raffle!

The winner will be announced at Alma Lasers booth. January 29th @ 12:00pm

Be the first to learn and experience the newest technologies that are re-shaping the industry!

iTED - VShape - SHR - Harmony

January 27-29, 2012 | Paris

iPixel enables you to obtain continuous and symmetrical fractional ablation and deep thermal heating of the skin.

iPixel rolls across the skin, delivering pulses that are triggered as a function of distance traveled, regardless of treatment speed.

Controlled spacing between pixels minimizes the treatment area; strengthening collagen and reducing patient downtime.

- Aged and damaged skin
- Acne scars
- Wrinkles
- Irregular texture
- Age and sun spots
- Stretch marks
