

# ACCENT® ULTRA

Selective Lipolysis Ultrasound and RF Body  
Contouring Workstation

## Reshaping Program

### What is Body360™ Reshaping Program?

Help your patients achieve outstanding turnaround in reshaping their appearance with a safe, non invasive treatment. **Accent Ultra's** unique system offers the latest in aesthetic treatments:

- **For body contouring and reshaping.** Your patients will lose body circumference, with measurable, repeatable results in just 6-8 treatments.
- **For the improvement of the appearance of cellulite on lose and fatty abdomen, hips and thighs.** with Alma Lasers' therapeutic selective ultrasound technology.
- **For fat reduction** with a non invasive, comfortable procedure.
- **For skin tightening** and treatment of **cellulite** to achieve a more youthful appearance using a patented UniPolar RF technology that heats skin gradually for comfortable treatment.

**Accent Ultra** is the only real alternative available that combines two novel technologies for body contouring improvement:

- No surgery
- No down time and no side effects
- Pain-free treatment
- Treats all skin types

Now there's a comfortable way to reshape, contour and slim your body, thanks to Alma Laser's Accent Ultra treatment.

- Slim and contour, and reduce cellulite and excess fat on the abdomen, hips and thighs using the **Ultra module**, which combines two advanced ultrasound technologies to offer the "gold standard" in body reshaping. Cold mode shear waves target fat cells and hot mode compression waves thermally enhancing the process.

- Treat skin texture to tighten and tone to achieve a more youthful appearance using the **UniForm module**, using Alma Lasers' core radio-frequency technology.

The RF technology combined with a mechanical massage applicator delivers non invasive cellulite treatment and skin tightening.
