EXCIMER LASER VS. EXCIMER 308 SYSTEM

AESTHETIC PRECISION
THE EXCIMER 308 SYSTEM: EXCIMER TECHNOLOGY IN THE PALM OF YOUR HANDS
Monochromatic UVB light has established itself for the treatment of various autoimmune skin diseases. The EXCIMER 308 SYSTEM is small, handy treatment solution for intense monochromatic UVB phototherapy. With 308nm, it applies the same wavelength as an excimer laser and achieves identical results, but without expensive, bulky laser technology. Treatments with the EXCIMER 308 SYSTEM are especially intense and effective. The powerful system with its 16 cm² spot precisely targets the lesions, leaving healthy skin unexposed.

**Established for Psoriasis**

The EXCIMER 308 SYSTEM achieves excellent results for psoriasis, identical to those of an excimer laser which is clinically proven. The targeting of localized, persistent psoriasis plaques allows high dose treatments for fast visible results and high patient satisfaction. The surrounding, healthy tissue is spared.

**Preferred for Vitiligo**

Monochromatic UVB light is described as an effective approach for the treatment of vitiligo with few side effects. The handheld EXCIMER 308 SYSTEM gets results in vitiligo treatments that match those of a laser.

---

### BENEFITS

- **Highly Effective**
  - High dose, monochromatic 308nm light, on par with excimer laser systems, optimum therapeutic ratio, lesion targeting for fast treatments and fast results & up to 16 cm² spot size for short treatment times of larger areas.

- **High Patient Satisfaction**
  - Completely pain-free treatments, maximum protection of healthy skin, no downtime, fast results.

- **Easy Handling**
  - Automated MED (Minimum Erythema Dose) test: convenient and time saving, simple and intuitive setting of all parameters, big, easy-to-use color touch screen.

- **Reasonable Price**
  - Low acquisition and operating, Maintenance-free technology, no consumables, no gas needed, mobile and space saving (smallest available handheld excimer system on the market).

**Interruption**

**Established for Psoriasis**

---

**Listen to our experts:**

- In the past I used the excimer laser for vitiligo and psoriasis with good clinical results. Now I use the handheld EXCIMER 308 SYSTEM because it is much more convenient and gives me the same clinical results.

  Moshe Lapidoth, M.D., MPH, Dermatologist, Dir. of the Laser Unit, Rabin Medical Center, Israel, Member (IP) of the European Society for Laser Dermatology.

- After treating many patients, I can see that the EXCIMER 308 SYSTEM is really powerful. The results are in some cases even better compared to my excimer laser.

  Dr. Raul Yaguboglu, DermAllegra, Pommelsbrunn / Hohenstadt, Germany

- In relation to the number of treatments, we are getting clinical results just as fast with the EXCIMER 308 SYSTEM as with an excimer laser.

  Prof. Dr. Ulrich Amon, DermAllegra, Pommelsbrunn / Hohenstadt, Germany

- I am highly satisfied with my EXCIMER 308 SYSTEM due to its vast application range, outstanding speed and incomparable safety.

  Dr. Jagdish Sakhiya, M.D, Sakhiya Skin Clinic, Surat, India
